-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 32-35, 47, 49-51, 56 and 58-60 are rejected under 35 U.S.C. 102(e) as being anticipated by Tsimelzon, Jr., U.S. Patent Pub. No. 2004/0177148.

Regarding claims 32-35, 47, 49-51, 56 and 58-60, Tsimelzon discloses a wireless communication system comprising: at least one wireless terminal (page 2, 0045; figure 1), an access point (base station inherent to cellular systems) in wireless communication with the at least one terminal and forming part of a network (page 3, 0045), a server connected to the network (0045), the at least one wireless terminal includes a selector for selecting objects so that selection information is transferred from the at least one terminal to the server (0046, 0047), wherein in response to the selection

information being transferred from the at least one terminal to the server, the server responds back to the terminal with a page template (HTML) containing localization and component parsing performed by the server before a response to the selection information is sent to the at least one terminal (the server takes into account which type of device the requested information is being sent to, 0090) and the localizing and parsing of the selection information is performed by the server according to a user profile stored by the server before responding back to the terminal is performed (0046, 0047, 0048, 0061, 0068, 0071).
